

## **Job Opening: Market Manager – Gulu Based**

Palladium is recruiting for NU-TEC (Northern Uganda – Transforming the Economy through Climate Smart Agriculture) Market Development, a five year DFID funded programme that aims to increase the incomes and climate resilience of poor men and women in northern Uganda by stimulating sustainable, pro-poor growth in selected agricultural markets and improving the position of poor men and women within these market systems, to make them more inclusive for poor people.

We are looking for a Market Manager to identify, develop and provide strategic direction and management for interventions in the markets that NU-TEC MD identifies will improve market access for beneficiaries. S/he will also be required to establish and manage relationships with potential partners and stakeholders in the various interventions within the market sector. S/he will be responsible for ensuring strong linkages between the market sector and the Results Measurement team of the programme.

### **ESSENTIAL QUALIFICATIONS**

- A Masters Degree or similar qualification in Business, Economics, Agriculture or Development Studies, or related field.
- A minimum of 5 years' experience implementing and managing projects or working in the private sector, with experience working in Northern Uganda, on agri-economy activities.
- At least 2 years' experience leading a busy team and coordinating across teams.
- Experience in business strategy development and implementing activities to strengthen businesses within an agricultural value chain.

### **PREFERRED SKILLS**

- Previous experience using the M4P approach.
- Previous experience working in the private sector in an agribusiness company.

## **Job Opening: Intervention Manager – Gulu Based**

We are looking for an Intervention Manager to design and manage the programme interventions in the markets that NU-TEC MD identifies will improve market access for beneficiaries. This will involve the strategy, design, planning, communicating, monitoring and reporting on all assigned interventions. S/he will develop and maintain close relationships with project partners (mostly businesses) while overseeing and coordinating the implementation of project interventions.

### **Essential Qualifications:**

- A Masters degree in Business, Economics or Agriculture, Development Studies or other related field with 3 years relevant experience or BS degree in Business, Economics or Agriculture, Development Studies or other related field with at least 5 years relevant experience.
- Ability to speak Langi or Acholi.
- Experience implementing activities to strengthen businesses within an agricultural value chain.

### **Preferred Skills:**

- Previous experience using the M4P approach.
- Previous experience working in the private sector in an agribusiness company.
