**Joint Clinical Research  
Centre (JCRC)**

---

**USAID/LOCAL PARTNER HEALTH SERVICES ACTIVITY,  
KIGEZI & LANGO**

**CALL FOR CBO & CSO PROPOSALS**

**Introduction**

The USAID Local Partners Health Services (LPHS) Kigezi & Lango is a five year (2020-2025) USAID funded project awarded to Joint Clinical Research Centre (JCRC) being conducted in the six and nine districts of Kigezi and Lango sub-regions respectively.

The project is implemented with a key objective of improving health outcomes through establishment of systems and structures that increase access and utilization for HIV and TB services.

**Approach**

LPHS appreciates that a strong health system must be supported by a robust community structure in order to provide quality and timely health services.

To foster the community component, LPHS seeks to work in partnership with the CBOs / CSOs specifically to:

- \* mobilize communities for services and encourage their participation in their care
- \* establish a strong community system to support the continuum of care (prevention, screening, diagnosis, care, and treatment);
- \* promote proactive referral of recipients of care in between the facility and community.

LPHS is seeking for applications from eligible Community Based Organizations (CBOs) and Civil Society Organizations (CSOs) to support the two regions.

**Application and Submission information**

The Applicants should clearly read the RFP Instructions provided on JCRC website: <http://www.jcrc.org.ug/resources/bids-tenders> and submit an application package using the templates also embedded. **Use of other templates will lead to automatic disqualification.**

Deadline for Submission is strictly **Monday September 20, 2021 at 5PM.**
